

# Machine Learning Seminar

**Dates:**

Session #1 - February 7<sup>th</sup>

Session #2 - February 14<sup>th</sup>

Session #3 - February 28<sup>th</sup>

**Time:**

4pm – 6pm

**Location:**

Gunn High School Library

**Equipment:**

Bring a laptop with Chrome browser installed

**Transportation:**

Students are responsible for getting to and from the seminar

Please join us for an introductory seminar on Machine Learning.

Each after school session is two hours long and will have a hands-on lab with practice exercises.

The seminar is open to all Gunn high school computer science students with the following prerequisites:

- Current enrollment or former completion of a high school computer science class (e.g. FOOP or AP Comp Sci)
- Some previous experience with Java or another computing language
- An understanding of linear equations and plotting

The seminar series will be taught by industry experts from Google and refreshments will be provided.

Space is limited so please register at [Registration Link](#).
